

3320. Пусть $x^3 = vw$, $y^3 = uw$, $z^3 = uv$ и

$$f(x, y, z) = F(u, v, w).$$

Доказать, что

$$xf'_x + yf'_y + zf'_z = uF'_u + vF'_v + wF'_w.$$

Предполагая, что произвольные функции φ , ψ и т. п. дифференцируемы достаточное число раз, проверить следующие равенства:

$$3321. y \frac{\partial z}{\partial x} - x \frac{\partial z}{\partial y} = 0, \text{ если } z = \varphi(x^2 + y^2).$$

$$3322. x^3 \frac{\partial z}{\partial x} - xy \frac{\partial z}{\partial y} + y^3 = 0, \text{ если } z = \frac{y^3}{3x} + \varphi(xy).$$

$$3323. (x^3 - y^3) \frac{\partial z}{\partial x} + xy \frac{\partial z}{\partial y} = xyz, \\ \text{если } z = e^{\varphi} \left(ye^{\frac{x^2}{2y^2}} \right).$$

$$3324. x \frac{\partial u}{\partial x} + \alpha y \frac{\partial u}{\partial y} + \beta z \frac{\partial u}{\partial z} = nu, \\ \text{если } u = x^n \varphi \left(\frac{y}{x^\alpha}, \frac{z}{x^\beta} \right).$$

$$3325. x \frac{\partial u}{\partial x} + y \frac{\partial u}{\partial y} + z \frac{\partial u}{\partial z} = u + \frac{xy}{z}, \\ \text{если } u = \frac{xy}{z} \ln x + x\varphi \left(\frac{y}{x}, \frac{z}{x} \right).$$

$$3326. \frac{\partial^2 u}{\partial t^2} = a^2 \frac{\partial^2 u}{\partial x^2}, \text{ если } u = \varphi(x - at) + \psi(x + at).$$

$$3327. \frac{\partial^2 u}{\partial x^2} - 2 \frac{\partial^2 u}{\partial x \partial y} + \frac{\partial^2 u}{\partial y^2} = 0, \\ \text{если } u = x\varphi(x + y) + y\psi(x + y).$$

$$3328. x^2 \frac{\partial^2 u}{\partial x^2} + 2xy \frac{\partial^2 u}{\partial x \partial y} + y^2 \frac{\partial^2 u}{\partial y^2} = 0, \\ \text{если } u = \varphi \left(\frac{y}{x} \right) + x\psi \left(\frac{y}{x} \right).$$

$$3329. x^3 \frac{\partial^2 u}{\partial x^2} + 2xy \frac{\partial^2 u}{\partial x \partial y} + y^3 \frac{\partial^2 u}{\partial y^2} = n(n-1)u, \\ \text{если } u = x^n \varphi \left(\frac{y}{x} \right) + x^{1-n} \psi \left(\frac{y}{x} \right).$$

$$3330. \frac{\partial u}{\partial x} \frac{\partial^2 u}{\partial x \partial y} = \frac{\partial u}{\partial y} \frac{\partial^2 u}{\partial x^2}, \text{ если } u = \varphi[x + \psi(y)].$$
